Savour zeste
Orange

How to use

Rince mouth with 5 ml (1 teaspoon) for 1-2 minutes. Do not swallow the product. Use up to 4 times daily or as directed by a health professional.

Ingredients of the the Onral formula and their functionalities

Purified water

Micronized benzocaine: local anaesthetic used to numb oral tissues in various clinical needs-micronized for optimal dispersion

Polyethylene glycol (PEG) 400: lubricant allowing the benzocaine to disperse uniformly in the suspension base and acts as a stabilizer

Polysorbate 80: solvent used to help keep active ingredient in suspension

Potassium sorbate: preservation agent inhibiting the growth of micro-organisms and extending shelf-life

Vegetable glycerine: humectant, emollient- oral comfort, soothes mucus membranes

Natural orange flavor: masking agent

Xanthan gum: emulsifying agent to help keep active from clumping

Sorbitol: improves flavor with sweetness without promoting dental carries, stabilizer

Beta carotene: natural color

Citric acid: pH modulator, improves shelf-life and taste

*Although this is a non-prescription product,
it should be kept behind the counter
to ensure oversight and appropriate use.*
